

Made by Australia

Tested and refined for over 50 years in some of Australia's most challenging environments. Inspired by the natural colours and forms of its most unique landscapes. Lived in and relied on by generations of Australians, past and future.

COLORBOND® steel isn't just a building material; it's an enduring investment in your family's home. With 22 striking colours in the core range and six colours also available in a premium Matt finish, there are endless opportunities for COLORBOND® steel to complement and enhance your home's design. This brochure lets you discover just what's possible when you renovate your home using COLORBOND® steel.

Something new to look up to

The colours you choose for your home help define its personality. And a new roof, with its size and position, is the perfect opportunity to revitalise your home's look or create an entirely new one.

COLORBOND® steel has a thoughtfully curated palette of proven and admired colours, six of which are also available in a soft, premium Matt finish. Inspired by Australia's unique landscape, each is designed to connect your home with its surroundings, whether they be urban, coastal or rural.

COLORBOND® steel is ideal not only for roofs, but walls, fascias, gutters, downpipes and garage doors as well. Its colours and finishes also beautifully complement other popular exterior building materials such as stone, timber, concrete and brick.

Roofing and gutters: COLORBOND® steel Surfmist® in a Matt finish.

The dual role COLORBOND® steel plays in this renovation highlights its genuine versatility. Retaining its heritage past but tying in a new addition seamlessly, the new Surfmist® roof in a Matt finish anchors the colour and material palette and continues the flow from exterior to interior.

Beauty that lasts

• COLORBOND® steel Dune® in a Classic finish | Shale Grey™ in a Matt finish.

Roofing, gutters and garage door:
COLORBOND® steel Dune® in a Classic finish.

The versatility of COLORBOND® steel as both an attractive and functional material for the roof, gutters and garage door is highlighted here by this warm and cohesive colour palette. It links the home with its surrounding landscape and blends the house seamlessly into its natural bush setting.

COLORBOND® steel has been designed to endure the demands of both evolving design trends and our harsh Australian environment. As beautiful as it is strong, it's the perfect choice for your next home renovation.

A SMARTER CHOICE

Durability

With five layers of protection, COLORBOND® steel has been designed to endure our harsh Australian environment and provide long-lasting durability you can trust. Our high quality steel is coated in our industry leading enhanced corrosion-resistant Activate® technology¹, then further enhanced with pre-treatment, primer and a baked-on topcoat.

Warranty

When you choose COLORBOND® steel, you're also getting the support of BlueScope, one of Australia's largest manufacturers. That's why COLORBOND® steel's renowned durability is backed up by some of the most robust building product warranties for eligible applicants.²

• Walling | COLORBOND® steel Monument® in a Matt finish.

Thermal comfort

COLORBOND® steel's core colour range in the Classic and Matt finish features our specially designed Thermatech® solar reflectance technology. Thermatech® reflects more of the sun's heat on hot, sunny days which may help increase your comfort while reducing your dependence on air conditioning³. Thermatech® is available in all core colours except Night Sky®.

• Roofing and gutters | COLORBOND® steel Windspray® in a Classic finish.

Sustainability

To help create a more sustainable 'circular economy', every COLORBOND® steel product incorporates recycled material and the steel itself is 100% recyclable. Moreover, COLORBOND® steel's proven longevity keeps resources in use for longer, minimising its impact on the environment.

PREMIUM FINISH

Matt

Soft in appearance yet durable and strong, COLORBOND® steel in a Matt finish beautifully diffuses light for a textured designer appearance that can elevate the

material palette of your home's façade.

COLORBOND® steel in a Matt finish offers a modern sophisticated look, allowing a home to nestle in with its surrounding landscape.

When paired with the Classic finish it offers a subtle contrast in colour and texture and creates an elegant look for any style of home.

Legend

SA = (Solar Absorptance) is a measure of how much of the sun's heat that a material absorbs. Choosing a colour with a lower SA is a cooler option and may help you meet building regulations such as NCC or BASIX. These are nominal values based on new product and measured in accordance with ASTM E 903-96.

U Available in COLORBOND® Ultra steel for coastal and industrial environments. Other colours in the Classic finish may be available on request.
